

POWER BROOM

Autonomously clear snow, leaves, and dirt with the RT-1000

Attach the Power Broom to transform the RT-1000 robot into a cleaning machine. The 56-inch broom removes snow and debris (leaves, dirt, sand) from sidewalks, walkways, and bike paths.

The heavy-duty, poly bristles tackle debris without damaging paths. A hydraulic cylinder allows the robot to angle the broom left or right depending on the path and obstacles. Deploy a snowbot today and clear miles of snow with greater efficiency.

Compatible with:

- RT-1000 Tractor

SPECS
Type: Front Broom Attachment
Broom Width: 64"
Clearing Width: 48" (with broom fully angled right or left)
Power: Hydraulic Motor. 300 RPM
Rotation: Forward & reverse
Bristle Diameter: 18" with poly bristles
